Footnotes:

- 1 All benefits are based on the covered charge as determined by BCBSNM. The deductible must be met before benefit payments are made for most covered services in a Plan year (excluding PPP office visits, preventive services, most diagnostic lab and x-ray services, and emergency room services). Preferred provider amounts cross-apply to the nonpreferred provider deductible and vice versa. A Plan year begins July 1 each year and ends on June 30 of the following year. Any amounts applied to the Plan year deductible during the last quarter of the Plan year (i.e., April 1 through June 30) will be used to help satisfy the next Plan year deductible. Note: A "PPP" is any preferred provider with a specialty of Family Practice, Internal Medicine, General Practice, Gynecology, Pediatrics, or Obstetrics/Gynecology.
- 2 After you reach the applicable out-of-pocket limit, BCBSNM pays 100 percent of most of your covered preferred or nonpreferred provider charges, whichever is applicable, for the rest of the Plan year. Preferred provider amounts cross-apply to the nonpreferred provider limit and vice versa. Amounts in excess of covered charges do not count toward the out-of-pocket limit or deductible.
- 3 Initial treatment of a medical emergency at a preferred or nonpreferred emergency room or trauma center is paid at the Preferred Provider benefit level. If you must be admitted as an inpatient as a result of an emergency, the entire, related hospitalization is paid at the Preferred Provider benefit level. Follow-up treatment and treatment that is not for an emergency are paid at the Nonpreferred Provider level. The emergency room or observation room copayment is waived if an inpatient admission results; then inpatient hospital benefits apply.
- 4 Certain services are not covered if prior approval is not obtained from BCBSNM. Nonemergency air ambulance transfer services are covered only when it is medically necessary to transfer the patient from one facility to another. A list of services requiring prior approval is in *Section 2*.
- 5 Admission review approval is required for inpatient admissions. You pay a \$300 penalty for covered nonemergency medical/surgical facility services if admission review approval is not obtained before being admitted to a nonpreferred facility. Some services, such as transplants and physical rehabilitation, require additional approval. If you do not receive approval for these individually identified procedures and services, benefits for any related admissions will be denied. The \$300 penalty will not apply in such cases. See *Section 2* for details.
- 6 Transplants must be received at a facility that contracts with BCBSNM or with the national BCBS transplant network.
- 7 The partial hospitalization and facility-based intensive outpatient program (IOP) copayments are waived if the patient is directly admitted into either program from an inpatient facility, or if the patient is admitted into a partial hospitalization program directly from an inpatient facility.
- 8 This benefit excludes services of a massage therapist. Covered massage therapy received as part of a chiropractic or physical therapy session are covered under either the chiropractic service benefit (when rendered by a chiropractor), or as part of the short-term rehabilitation benefit (when rendered by a licensed medical doctor, doctor of osteopathy, registered physical therapist, licensed physical therapist, or doctor of oriental medicine). Rolfing must be provided by a licensed rolfer.
