Fire Prevention

Defend Your Home from Wildfire

- Minimum of 5 ft. between branches.
- Make sure trees are limbed at least 10 ft. up to reduce the likelihood of a fire getting into the tops of the trees.
- Trim vegetation so the fire department can have safe access to your home.
- Keep vegetation, including the lawn around the home, low and green.
- Beauty bark will smolder. Use it away from the home.

Eliminate fire fuels within 30 ft. of any structure.

Make sure your home/structure has non-flammable roof and deck.
